Freeware Routes
Guterbahnhof
- ECML Moorgate Extension v5

Notes to consider

- *Class 387 AI trains run with their pantographs down.*
- *There are no Grand Central services as I did not own the Class 180 at the time of making this.*
- *Refer to the briefing for all the service timetable information.*

How to Install

Simply extract the zip file and then copy the 'Content' folder into the following directory:

C:/Programs Files (x86)/Steam/steamapps/common/Railworks

The scenario should then have successfully installed

Name:

[YR] 2V16 17:00 Moorgate to Welwyn Garden City
